# MAKE YOUR MARK ON THE WORLD

Luxury lifestyle brand WtR takes its inspiration for the SS17 Collection from the visionary cosmopolitan city of Sydney.

The city's modern architecture helps shape a range based on complex geometry and a sharpness of cut that flows gracefully through a Collection of timeless pieces. Using the curving lines and sculptural forms of the buildings as its muse, WtR focuses on modern luxury and a refined simplicity that supersedes seasonal trends.

The SS17 Collection comprises a range of expertly crafted pieces that will carry the WtR woman effortlessly from day to night.

Sydney's skyline and progressive architecture have inspired WtR to develop progressive folding lines, soft draping curves and a powerful femininity that runs through dresses, skirts, trousers and subtle layered tops.

With SS17, WtR paints an enticing palette of rich pine green and opulent purple, juxtaposed by natural salmon pink and timeless dove grey to finish a modern sophisticated Collection.

SS17 celebrates creative sculptural pieces, cross layered volumes and elegant, unexpected draping folds – crafted through experienced pattern cutting and a detailed knowledge of the 3D effects and shapes that textured fabrics can create.

As with previous collections, WtR expertly plays with the details and textures to invent stunning architectural silhouettes which allow the wearer to express her personality through a strong, modern wardrobe.

## SCULPTURE

Sculptural pieces with clean lines, deep pleats and architectural details.

## LAYERING

Creative layering pieces that plays with volume, cutting and texture.

## SWANKY FOLDS

Playful fold details and innovative pattern cutting with soft draping and fabric manipulation.
